It's not bad to believe … be good, be true

Your back to the wall, like a man on the run, do you feel your silent scream
Remember a kiss was it that what you´ve missed, you´re awakening from your dream?

Feeling the night from deep down inside, how do you know if love is true?
'cause when it is love with no help from above, it might destroy you too …

Now when it is real and all that you feel - all your loneliness it might be gone
Oh now when it is real, you never will walk alone - Oh babe

It´s not bad to believe, cause we're living in a world of angels
It´s not bad to be true, because this crazy love (is) might be you
It´s not bad to believe in a crazy little love of angels
It´s not bad not bad to believe in a dream and that it might come true

All of your feel buried deep in your dreams, as someone appears on the scene
Eyes so unreal, the willing to heal, all of your thoughts they appear so clean

Now when THAT is real and all WHAT you feel - YOUR loneliness it might be gone
Oh now when it is real , you never will BE alone - Oh babe

Chorus:
It´s not bad to believe, cause we're living in a world of angels
It´s not bad to be true, because this crazy love (is) might be you
It´s not bad to believe in a crazy little love of angels
It´s not bad, not bad to believe in a dream and that it might come true

How, how can loneliness be a feel for the right time
How, how can we begin when we feel - so much love

It´s not bad to believe, cause we're living in a world of angels
It´s not bad to be true, because this crazy love (is) might be you
It´s not bad to believe in a crazy little love of angels
It´s not bad not bad to believe in a dream that might come true
It´s not bad to believe in a crazy little world of angels
It´s not bad not bad to believe in a dream that might come true
